High ropes, low ropes, canoeing, camping, climbing resources.

Electricity Consumption: 308790 (kWh)

Key Priorities for 2013:
1. Implement the Australian Curriculum
   - Review MOEC Curriculum to:
     - Align Core Learnings with the Australian Curriculum with specific focus on General Capabilities.
     - Ensure inclusion of VET in documentation.
   - Implement whole school pedagogical practices
   - Review MOEC pedagogical framework to attune with DETE Pedagogical Framework.
2. Using data to inform teaching practice
   - Refine Staff and program evaluation.
   - Redevelop program reporting to schools
   - Develop pre and post data collection and reporting process for students, parents and schools.
3. Develop instructional leadership with a focus on workforce performance
   - Engage University of Tasmania in action research to improve teacher performance in Outdoor Education.
   - Develop productive partnerships with students, staff, parent, and the community
   - Refine bookings process to specifically target schools with appropriate enrolments to meet centre booking targets.
4. Develop resources to assist the school coordinator to maximise the number of students and quality of preparation.

How Information and Communication Technologies are used to assist learning:
Maroon OEC has a curriculum that is based on the personal development of students. The core learning is provided through the Maroon OEC curriculum which includes:
- Teamwork
- Collaboration
- Problem Solving and Group Decision Making
- Responsibility and Collaboration
- Inquiring/Resilience through Challenge
- Enhancing Self-Concept
- Environmental Sustainability
- Goal Setting
- Lifelong link
