For all educational programmes costs include food, accommodation and the use of all facilities. In addition, a Centre co-ordinator and sufficient teaching staff are allocated to support the requested programmes. The daily operations charge applies for full or part days. There is no charge for accompanying school staff.

Costs for overnight camping in adjacent National Parks, State Forests and private land holdings are included in the programme costs.

#### Off site Student Programmes

Schools may wish to run part or the entire programme at another venue (eg school or local reserve). This will attract a daily operational fee of \$5.50 per student plus reimbursement for staff travel and accommodation.
